the twitter posts of the activists who brought heady days of revolution to egypt in early 2011 paint a picture of an uprising in real time this book brings together a selection of key tweets in a compelling fastpaced narrative allowing the story to be told directly by the people who made the revolution

twitter has become a household name discussed both for its role in prominent national elections natural disasters and political movements as well as for what some malign as narcissistic chatter this book takes a critical step back from popular discourse and media coverage of twitter to present the first balanced scholarly engagement of this popular medium in this timely and comprehensive introduction murthy not only discusses twitter s role in our political economic and social lives but also draws a historical line between the telegraph and twitter to reflect on changes in social communication over time the book thoughtfully examines twitter as an emergent global communications medium and provides a theoretical framework for students scholars and tweeters to reflect critically on the impact of twitter and the contemporary media environment the book uses case studies including citizen journalism health and national disasters to provide empirically rich insights and to help decipher some of the ways in which

twitter and social media more broadly may be shaping contemporary life

this volume examines the role of arab women in arab spring and their contribution to the ongoing process of change sweeping the region the book begins with an examination of the process of democratization and its impediments in the arab world since the second world war it then looks at the conditions that led to the upsurge of the so called arab spring finally it underscores women s role as participants organizers leaders but also as victims the main thesis of the book is that while arab women were an integral part of the revolutionary efforts within the arab spring paradigm they did not benefit from their sacrifices although they continue to be part of the process of change their gains rights and scope for participation are still limited if the expansion of women s participation and the scope of their rights do not seem to be a priority for revolutionary forces women have made remarkable achievements especially in some arab spring countries such as yemen and libya the book includes case studies of some arab spring countries and other countries influenced by developments egypt bahrain kuwait libya yemen algeria jordan morocco and saudi arabia it calls on revolutionary and reformist forces to give special attention to issues related to arab women as they are an indispensable pillar in the process of reform development peace and stability in the middle east

narratives are the wealth of nations they animate life sustain culture and cultivate humanity they regulate and empower us bringing both joy and discontent and they are always embedded in ubiquitous power stories shape power and power shapes story in this provocative and original study ken plummer takes us on a journey to explore some of the key dimensions of this narrative power his main focus is on what he calls narratives of suffering and how these change through transformative narrative actions across an array of media forms the modern world is in crisis and long standing narratives are being challenged in five major directions through deep inequalities global state complexities digital risks the perpetual puzzle of truth and the ever emerging contingencies of time asking how we can build sustainable stories for a better future the book advocates the cultivation of a narrative hope a narrative wisdom and a politics of narrative humanity narrative power suggests novel directions for enquiry discusses a raft of innovative ideas and concepts and sets a striking new agenda for research and action

this book constitutes the refereed proceedings of the third international conference on electronic participation epart 2011 held in delft the netherlands in august september 2011 the 26 revised full papers were carefully reviewed and selected from numerous submissions the papers are organized in topical sections on appreciation of social media visualizing arguments understanding eparticipation eparticipation initiatives and country studies participation and eservices and innovative technologies

there is growing recognition and understanding of music s fundamentally spatial natures with significances of space found both in the immediacy of musical practices and in connection to broader identities and ideas around music whereas previous publications have looked at connections between music and space through singular lenses such as how they are linked to ethnic identities or how

musical images of a city are constructed this book sets out to explore intersections between multiple scales and kinds of musical spaces it complements the investigation of broader power structures and place based identities by a detailed focus on the moments of music making and musical environments revealing the mutual shaping of these levels the book overcomes a eurocentric focus on a typically narrow range of musics especially european and north american classical and popular forms with case studies on a diverse set of genres and global contexts inspiring a range of ethnographic text based historical and practice based approaches

this book constitutes the refereed proceedings of the 9th international conference on social cultural and behavioral modeling prediction and behavior representation in modeling and simulation sbp brims 2016 held in washington dc usa in june july 2016 the 38 full papers presented were carefully reviewed and selected from 78 submissions the goal of this conference was to build a new community of social cyber scholars by bringing together and fostering interaction between members of the scientific corporate government and military communities interested in understanding forecasting and impacting human socio cultural behavior for this three challenges have to be met deep understanding socio cognitive reasoning and re usable computational technology thus papers come from a wide number of disciplines computer science psychology sociology communication science public health bioinformatics political science and organizational science
